

Smart M APP installer created

1. Created by the installer

Log in to Smart M using the account you created. Click on "**Mine**" in the bottom right corner.

Click "User Manage" to enter the "User Manager" page. Alternatively, you can

directly click ^(B) on the "**Home**" page to enter the "**User Manager**" page.

Click the \bigcirc button in the bottom right corner to enter the "**User Add**" page. enter the installation provider information, select "**Installer**" as the Type, and click "**Submit**" to complete the creation.

2. Authorization from the installer

Find the installer you just created on the "User Manager" page, click the

button in the upper right corner, and a pop-up window will pop up with the user

operation button. Click on "Authorization" on the right side of the pop-up window.

Click the "**Authorize**" button in the upper right corner of the page, and a popup window will pop up with a list of authorized power plants. Filter out the power stations that require authorization, click on the data, and then click "**Authorize**" to authorize the current installation vendor for that power station.
