

## UPGRADE

## **1. Login to the system**

Open the Smart M app, enter your username and password to log in to the system,

and select the "**Service**" menu.

## 2. Firmware upgrade

Select the "**Firmware**" menu, enter the firmware upgrade interface, find the device that needs to upgrade firmware, click the button in the bottom right corner, and enter the "**Firmware List**" page.

0\*\$15 B

Find the firmware version to upgrade on the "Firmware List" interface, click the  $\odot$ button on the right to start the upgrade process, wait for the system upgrade to complete, and the page will prompt "**Success**" to complete.
