

Smart M APP Create Plant

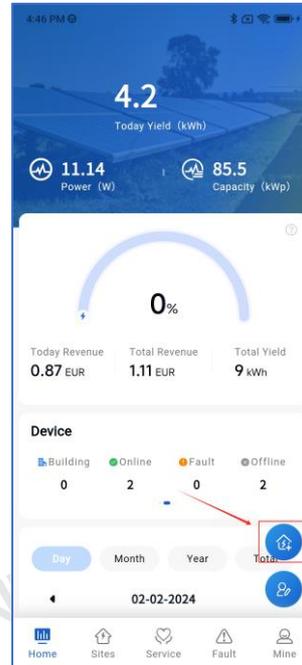

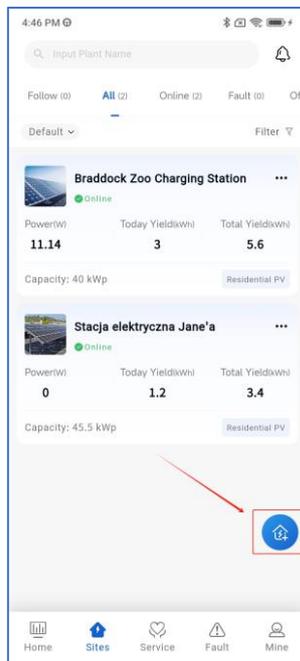

1. Create Plant

Use your account to log in to the Smart M app. Click on the **"sites"** menu at the bottom to enter the list of power plants.

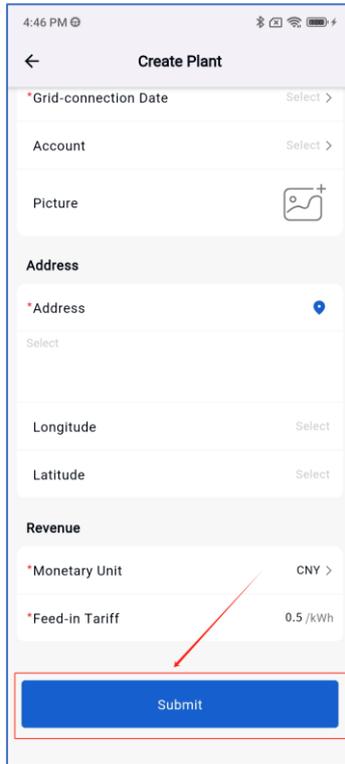

Click the  button on the right to enter the **"Create Plant"** page.

Alternatively, you can click the  button on the **"Home"** page to enter the **"Create Plant"** page.

After entering your power station information, click "**Submit**".
